

Master's Degree and MBA Application Support

Employers often consider a postgraduate degree as essential when they are looking for candidates that stand out from the crowd. Getting on the right course can be a daunting process. Uni Direct's team of experts can be there to support you through each step.

Master's Degree and MBA

Uni Direct can support you through the process of identifying postgraduate study options in the UK and Europe. We can help you understand how to choose and apply for a master's degree, so your chosen course matches your academic qualifications, personal and professional interests.

Making your choice

The UK and Europe can offer a great studying experience in some of the most prestigious institutions in the world. There is a wealth of choice of excellent courses in vibrant cities with interesting cultures and extra-curricular activities to suit everyone. We will help you navigate the diverse range of choices so that you select a course that will both inspire and challenge you.

Applying for a master's degree

Unlike applying for an undergraduate degree, for your master's degree or MBA you will need to apply directly to the university. Most universities and courses will consider applications throughout the year. The application process requires similar documentation to your undergraduate degree, usually consisting of an application form, personal statement, cv, proof of English proficiency and references. Key to your success will be your ability to demonstrate what you have learned from your studies to date and how you will use this to succeed in your chosen master's programme.

We will help you use your hard work from your first degree and passion for the subject to submit a winning application.

Applying for an MBA

Research has shown that MBA graduates can expect to see a 35–45% increase in their salary. Making a successful MBA application requires the same careful consideration and career development planning as applying for a master's degree.

An MBA often involves you completing a period of professional or managerial work experience before you make an application. We will help you in finding the right MBA course, in either the UK or Europe.

In addition to the requirements for applying for other master's degrees, to apply for your MBA you will need to submit a cv and to complete tests that will examine your ability in analytical writing, reasoning, numerical and verbal aptitude tests.

Undertaking an MBA is often a large financial investment. We are here to ensure that your chosen MBA provides you with the tools to achieve your professional goals and aspirations.

We would be very happy to discuss the right approach for your Master's or MBA, so please contact us to discuss your specific requirements.
